Success stories

FRESENIUS MEDICAL CARE

A 14-year national partnership

2,235
transactions

$186.3M
gross savings

Consulting, labor analytics, location strategy, incentives, transaction and project management across one of the world's largest healthcare portfolios — with metrics on every completed project and planning that starts 3.5 years before lease expiration to maximize leverage.

dispatch health

Rapid growth, on time and on budget

42
transactions in 2022

38
markets

Portfolio strategy, account management, transaction management and lease administration for challenging requirements in new and existing markets. Every transaction closed ahead of schedule and within budget, through a single point of contact.

DaVita

Headquarters leverage, put to work

20+
year partnership

430K
SF HQ building

Transaction and project management for DaVita's downtown Denver headquarters relocation and expansion. Occupying ~80% of the building, DaVita used that leverage to control design and secure a private entrance, elevator bank and green-roof event terrace.

Healthcare Practice Group | Houston

A second opinion **you can trust.**

Whether you lead a health system, a physician group, an outpatient network or a healthcare company in Houston, industry disruption is changing not only how you deliver care, but where. Before you commit to a location, it helps to have an expert, independent view. We help you align your real estate with your mission and build in the economic and functional flexibility you need to grow.

We work only for occupiers, never for landlords or developers, so every recommendation we make is in your best interest.

Who we serve

- Health Systems
- Physician Networks
- Outpatient & Ambulatory
- Long-Term Care
- Laboratories
- Insurers & Administrators
- Home Healthcare
- Medical Devices & Health Tech

INTEGRATED SERVICES

One point of contact for every site and every stage of the real estate life cycle.

- Portfolio Strategy
- Transaction Management
- Project Management
- Lease Administration
- Location Strategy
- Labor Analytics
- Incentives Negotiation
- Strategic Consulting

Healthcare Analytics | Portfolio Solutions

Where to grow is a data problem. **We solve it before you sign the lease.**

Our healthcare analytics turn demand, competition and access data into defensible site decisions. Instead of gut-feel recommendations and generic market narratives, you get scored, data-backed answers — and the confidence to move faster with less risk.

What we analyze

Market Demand Modeling
Disease prevalence, addressable patients and growth projections by ZIP and service line.

Competitive Saturation
Provider density, capacity and cannibalization risk measured against unmet demand.

Drive-Time & Access
Patient and labor catchments built from real travel times, not radius circles.

Site Ranking & Selection
Weighted scoring that ranks buildings and submarkets against your criteria.

Referral Network Mapping
Referring-physician relationships and patient flow that show where demand originates.

Payer Mix Analysis
Commercial, Medicare and Medicaid mix by market, so you can model reimbursement early.

What you receive

Opportunity scorecards
100-point scores ranking every market in your footprint.

Demand & competition workbooks
The full data and methodology behind every finding.

Drive-time access maps
Patient and labor catchments by site and submarket.

Site ranking matrices
Candidate buildings scored against your growth criteria.

Board-ready executive decks
A clear narrative for leadership, lenders and your board.

OUR PROCESS

1. **Analyze** — Run the composite market analysis
2. **Target** — Pinpoint priority ZIP codes
3. **Specify** — Define building and site requirements
4. **Staff** — Map the available labor pool
5. **Refer** — Identify referral networks
6. **Contract** — Surface payer mix to start contracting

From analysis to signed lease. Each step hands your Cresa team a sharper target — priority ZIP codes, building requirements, labor and referral insight, and payer data to begin contracting early.

WHAT YOU GAIN

Decisions that hold up in the boardroom.

Confidence in the decision
Every recommendation traces back to a 100-point opportunity score you can defend to leadership and lenders.

Clinical strategy aligned to the market
Sites chosen on service-line demand, payer mix and referral patterns — not just rooftops and traffic counts.

Reduced risk, faster approvals
Answers ready before your board asks, so decisions move from analysis to approval without rework.

A long-term strategic advisor
Analytics that carry the relationship beyond one transaction into ongoing portfolio strategy.
