Our Only Bias is You.

As the world's largest occupier-focused commercial real estate advisory firm, Cresa sits on one side of the table: yours. We have no listings to fill and no landlord relationships to protect, so we're free to negotiate as hard as your deal requires.

Full-service commercial real estate firms generate a large majority of their revenue from their relationships with landlords. That arrangement is not in the tenant's best interests. At Cresa, we don't think that's right. That's why we're squarely in your corner and never represent landlords or developers.

Why It Matters to You

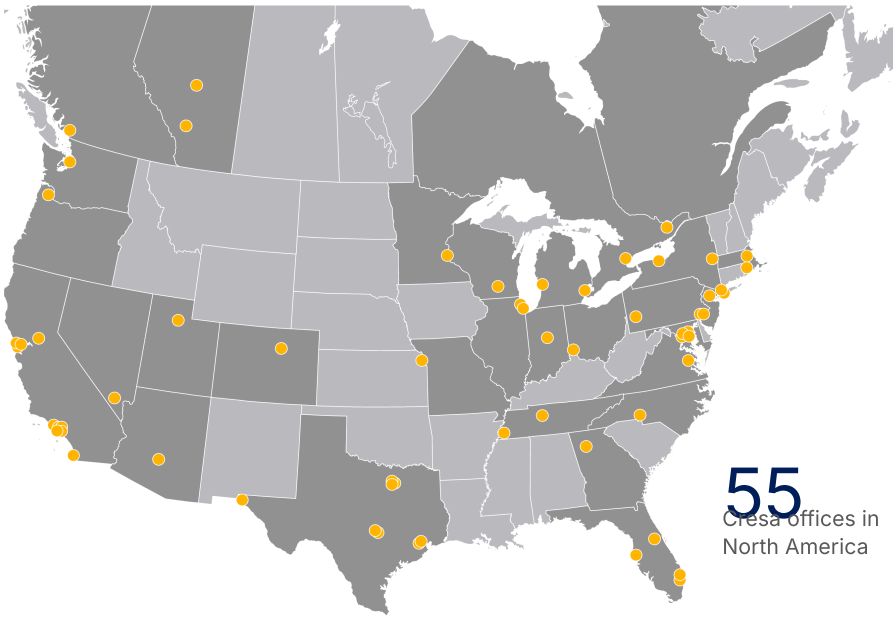

01
No obligations to landlords

02
Freedom to negotiate more aggressively

03
A platform solely dedicated to occupiers

04
Unbiased, objective client representation

05
Consistent cost savings for our clients

Cresa offices in North America

We Are Wherever You Need Us.

With 55+ offices across North America, Cresa brings local market knowledge to wherever you deliver care. Whether you're entering a new metro or adding a clinic down the street, our advisors already know the submarkets, the buildings and the deal terms on the ground.

That reach moves with you. As your footprint expands into new cities, states or regions, every location gets the same market data, negotiating standards and reporting, so a suburban outpatient site gets the same rigor as a flagship campus. Wherever your next site is, chances are we're already there.
